

## GIANT brand Water Heaters

The following outstanding technical features are why Giant's water heaters are "BUILT TO LAST LONGER".

### INSULATION

A thick uniform blanket of eco-friendly insulation keeps the water hotter for longer periods, reduces stand-by losses and energy costs. It contains no HCFC'S (hydro chlorofluorocarbons), CFC'S (chlorofluorocarbons) nor VOC's (volatile organic compounds).

### HIGH QUALITY MAGNESIUM ANODE

Provides superior corrosion prevention and extended tank life

### ELECTRIC ELEMENTS

All models are equipped with CSA approved bolt-on immersion elements made by Giant. These elements can be easily replaced with no special tools, resulting in low maintenance costs

### GLASS- LINED INNER TANK

A uniquely formulated blue cobalt glass enriched with zircon is fused to specially treated steel at 1,600°F (871°C) to provide the best coating available against corrosion for many years.

### AUTOMATIC TEMPERATURE CONTROL

Adjustable thermostats will provide years of reliable trouble-free service at the desired water temperature and a safety cut-off is provided for abnormal conditions.

**WARRANTY** One (1) year limited warranty on component parts Giant residential electric water heaters have a (6 to10) years limited warranty against inner tank leakage

---

## Standard Electric Water Heater

Standard electric water heaters are easy to install and can be located almost anywhere in your home. GSW offers a wide variety electric heaters based on gallon capacity, physical size, electrical configuration and water connection location.

### Product Features

- Tank is glass-lined to provide superior protection against the corrosive effects of hot water
- Factory-installed plastic-lined heat trap nipples and patented Styropour base for added energy efficiency
- Tamper-resistant drain valve
- Thermostatically controlled long life heating elements

Limited warranty: 1 year on parts and labor, 6 years on tank leakage.
